### Key Columns in Report

Summary	<b>Column X</b> provides time to reunification rates for reporting period by site, county (ALL) and statewide
Case-Level Detail	<b>Column AV</b> provides the length of the most recent placement episode for each child

### Other Comments/Considerations

- Report includes only cases where the child has been documented to have discharged from placement in the Out-of-Home Placement window, Service Ending pop-up window.
- The time calculation is based on the time difference between the most recent removal date and discharge date as documented in these windows.
- The calculation for the National Standard (above) is established using available data from all states and is based on data reflecting a one-year period of activity.
